

KILN PROCESSING CONTROL - KPC100

KILN CONTROL

Nyle Kiln Processing controller provided by Nyle Systems features a 3.5" touch screen control interface that monitors kiln status, temperatures, and controls. Control comes complete with 8 relays for equipment and records entire kiln process.

KPC100 comes in 15 x 12 x 7 custom cabinet.

* 115 / 1 / 60—50 Power Supply Required

FEATURES:

1. On/Off controls for Heat, Ventilation, Forward and Reverse Circulation Fans, Refrigeration, and Humidification
2. Control wiring is made easy with removable relay board and ribbon cable.
3. Easily configured to dry any species of wood, and manages all equipment functions automatically.
4. Will store up to 500 different Cycles on single memory card. Works just like a digital camera. Pull the memory card out to print graphs on any windows based pc.
5. Includes 1 FWD Dry Bulb sensor, 1 REV Dry Bulb Sensor, and 1 Wet Bulb Sensor each w/ 50' lead wire attached
6. Press start button and walk away. Automatically controls kiln process with a touch of a button. Remote control capabilities via cell phone and internet are available as options.
