

## L53 Chamber

Our smallest unit now has a chamber option! The L53 chamber is a high grade aluminum chamber featuring two fans and two power vents. The chamber is designed for easy loading and unloading. It is capable of drying between 300 - 1,000 board feet of lumber depending on if it is fast or slow drying. The L53 unit with this chamber will remove 60 lbs. of water every 24 hours and will operate between 70 - 120°F.
